***Detailed Action***

This is the first Office Action corresponding to original filing. The application contains 28 claims. This application has two groups of different inventions. Group I drawn to a height adjusting mechanism as disclosed by claims 1-14, and Group II drawn to a support as disclosed by claims 15-28. No restriction is made since the application is a 371 of PCT/EP04/50233 (refer to PCT Rule 13.1).

***Drawings***

The drawings have been accepted by the examiner.

***Information Disclosure Statement***

Receipt is acknowledged of Information Disclosure Statement, which has been reviewed by the Examiner.

***Specification***

The examiner has a question regarding page 7, line 14; does "Fig. 8" is correct, or does Applicant meant - - Fig. 2 - -?

***Claim Rejections - 35 USC § 112***

Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter

which applicant regards as the invention. Claim 1 is confusing; it appears that some clause has been left out. Please refer to line 5 wherein the socket is mentioned twice, is something missing after the second occurrence? Please clarify.

### ***Allowable Subject Matter***

Claims 15-28 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: none of the art of record discloses a support for an optical system comprising the height adjusting device recited in claim 15.

### **Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kline (5,195,705), Gutowski (5,915,655) and Shirlin (5,383,632), Reichert (7,136,222) and Mitzkus (6,717,724) show supports for microscopes and/or hand rests.
